

THE POWER OF A POSITIVE TEAM

TEAM CONSULTING

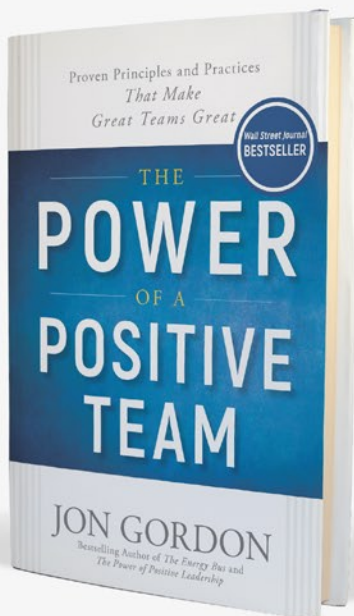

FULL DAY TEAM SESSION
FOR LEADERS AND THEIR TEAM

THE JON GORDON COMPANIES

NO ONE CREATES SUCCESS ALONE. WE ALL NEED A TEAM TO BE SUCCESSFUL.

Negativity and a lack of communication, connection and commitment too often sabotage a team's mission and performance. That's why our program, delivered at an office or off-site location, is designed to help leaders build a more positive, engaged and connected team. During our session teams will assess their culture, identify key areas that need improvement and implement principles and practices that transform negativity, improve communication, build trust, generate clarity and enhance team grit and growth.

Based on Jon Gordon's best-selling book *The Power of a Positive Team*, a JGC consultant will activate within your team a proven model that has been put into practice by various leadership teams such as the Los Angeles Rams, Dell, Snap and The Miami Heat. Applying research, compelling stories, interactive discussions and customized team building strategies that address your real world situations, your team will leave more optimistic, connected and prepared to succeed TOGETHER.

Facilitated by a JGC Team Building consultant your team will:

- Review the principles, practices and characteristics that make great teams great and identify what your team must do to improve and grow together.
- Create alignment and clarity to ensure that everyone is working toward the same vision and mission.
- Identify current challenges and learn strategies to maintain optimism through adversity.
- Assess your team's level of communication and connection, and make immediate improvements.
- Discuss and implement practical solutions to confront, transform and remove negativity from your team.
- Engage in conversations that build trust and enhance a team's creativity, accountability and performance.
- Discover how positive discontent and positive conflict will help your team continuously improve and pursue greatness together.
- Create a plan to sustain an integrated approach to ongoing team excellence.
- Practice strategies for challenging conversations and team situations designed to transform or remove negativity.
